FOOTNOTES, DEFINITIONS, AND RULES

Oracle E-Business Suite Footnotes

1

An option must be licensed at the same level (or greater than) as its parent. Example: number of Flow Manufacturing users = number of Discrete Manufacturing users. If the parent has multiple metrics, the option must be licensed at the same level as its parent for each metric. Example: number of Advanced Pricing users = number of Order Management users AND number of Advanced Pricing Electronic Order Lines = number of Order Management Electronic Order Lines.

3

Order Management is licensed based upon the number of application users AND the number of order lines entered from any source other than those entered by licensed Order Management Users. Order Management User licenses are required for all individuals who are using Order Management. In addition, any order that is entered electronically into Order Management must be licensed using the Electronic Order Line metric. This applies to order lines originating in iStore, Quoting, EDI/XML transactions, legacy applications or any other source. (Order lines entered manually by the licensed Order Management users are covered under the Order Management User license)

4

For the purpose of licensing this program (except Healthcare Transaction Base), only the processors on which iAS Standard Edition and/or Enterprise Edition and this program are running are counted for the purpose of determining the number of processors required to license this program.

For the purpose of licensing Healthcare Transaction Base, only the processors on which iAS Enterprise Edition and this program are installed and/or running are counted for the purpose of determining the number of processors required to license this program.

6

Configurator can be licensed by Application User OR by Processor. If licensing by Application User, then the actual users accessing Configurator must be counted. If the user population accessing Configurator is uncountable, then the Processor metric must be used.

7

If licensed with Clinical, the total number of application users and application read-only users of Thesaurus Management System must match the number of application users of Clinical. If licensed separately, the minimum of application users for Thesaurus Management System is 1, the minimum of application read-only users is 5.

8

Customers must pay for both the module and the subscriber/workstation fee.

9

Separate Remote Data Capture licenses are required for remote site-based data entry. In-house entry users require Clinical licenses. Remote Data Capture is licensed by Application User when the annual CRF Page volume cannot be estimated, or if it is more cost effective.

ORACLE SUPPORT SERVICES

Oracle Support Services (OSS) offers the following programs: Software Update License & Support to provide customers with the right to Oracle product upgrades and 24x7 support of all Oracle products, and Oracle Advanced Customer Support for a menu of additional services designed to provide an enhanced level of support. Services may vary by country. For availability, contact your local Support Sales representative. For a complete description of Oracle Support Services programs, refer to the Sales Support website at <http://www.oracle.com/Support>

Software Update License & Support

Software Updates License & Support provides customers with the right to product upgrades and 24x7 technical support, and is available for five years from the release date of the product. Product upgrades includes upgraded versions of software, maintenance releases and patches. Customers receive direct access Oracle experts for product-specific questions about installing and operating Oracle software. Web based support is provided via OracleMetaLink. Features of MetaLink include proactive notifications, customized home pages, technical libraries and forums, product life-cycle information, a bug database, and the ability to log technical assistance requests.

Support Renewals

Prices shown on this price list are annual fees that apply to both perpetual and term licenses for first year support only. The price of a technical support renewal for Software Update License & Support is the technical support fees paid for the same licenses in the prior year, increased by the appropriate renewal adjustment. Oracle uses two different renewal adjustments: the Inflationary Adjustment Rate (IAR) and the Local Renewal Adjustment (LRA). Support for all licenses is adjusted by the greater of the LRA or the IAR. In all cases, any valid technical support cap included in a license agreement or ordering document that governs the licenses, limits the renewal adjustment. For more information on renewal adjustments, contact your Support Sales representative.

Customer Support Services Policies and Definitions

The complete policy can be found in the Technical Support Policies at <http://www.oracle.com/support>

Extended Support

Customers with current Software Updates, License & Support can support their product for a further 3 years, past the initial 5 years from the general availability date of the product, by purchasing Extended Support. Extended Support fees are applied to the desupported Oracle programs only. Extended Support fees consist of the prior year's fee for Software Updates & Support plus the applicable renewal adjustment, plus an additional fee based on the year. Additional fees are as follows:

Year 6 after product release: 10% of current year's Software Update License & Support

Year 7 after product release: 20% of current year's Software Update License & Support

Year 8 after product release: 20% of current year's Software Update License & Support

Extended Support offers the following:

- Updates, fixes and security alerts
- Tax, legal and regulatory updates
- Upgrade scripts
- Technical support
- Major product and technology releases

ORACLE E-BUSINESS SUITE COMPONENT APPLICATIONS GLOBAL PRICE LIST FOOTNOTES, DEFINITIONS, AND RULES

Sustaining Support

Sustaining Support offered in years 9 and beyond provides technical support—i.e., access to Oracle's online and call-center support—and rights to future products for as long the customer is purchasing support. Sustaining support is charged as per renewal pricing, found in the "Support Renewals" section above.

Sustaining Support provides:

- Technical Support
- Access to MetaLink/Customer Connection
- Major product and technology releases
- Pre-existing fixes
